

PBW BEARINGS PRIVATE LIMITED

Letter No.: PBWBearings/110726/01

Dated: 11 July, 2026

Important Message – Change of Company Logo

Dear Valued Business Partner,

It gives us great pleasure to announce the introduction of our new company logo, marking an important milestone in the journey of PBW Bearings.

We are simply changing our logo – nothing more.

There is **no change** in our company's legal entity, locations, addresses.

Our new logo

Our refreshed logo, featuring **Green and Yellow** as its primary colours, symbolizes the values that have always defined our organization:

- **Green** represents growth, trust, sustainability, and our commitment to long-term partnerships.
- **Yellow** signifies energy, innovation, optimism, and our pursuit of continuous improvement.

Why are we changing our logo

At **PBW Bearings Pvt. Ltd.**, our commitment has always been to engineer reliable bearing solutions that power industries with precision and performance. This new identity reflects our continuous growth, progressive vision, and unwavering commitment to engineering excellence.

The adoption of our new logo also reflects the Company's evolving leadership and long-term strategic direction. As part of the succession within the founding family, the Company's leadership has transitioned to Mr. Naresh Patel, who serves as the Chairman & Managing Director. This transition represents the next phase in the Company's evolution while preserving the values and legacy established by the founding family. The new corporate identity appropriately reflects this evolution and reaffirms our continued commitment to continuity, stability, innovation, and sustainable long-term growth.

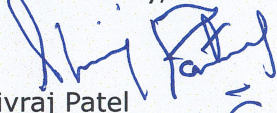

New Look. Same Commitment. Stronger Future.

During the transition period, you may receive products, packaging, labels, catalogues, and official documents displaying either our existing logo or the new logo. Both identities represent the same trusted **PBW Bearings Pvt. Ltd.**, and all products continue to be manufactured under the same stringent quality standards.

We sincerely thank you for your continued trust, confidence, and partnership.

Should you require any additional information regarding this transition, please feel free to contact us.

Yours sincerely,

Shivraj Patel
Director
